Early Education Workshop!

**March 21,
2015**

“Growing Up WILD is an early childhood education program that builds on children’s sense of wonder about nature and invites them to explore wildlife and the world around them. Activities include outdoor explorations, scientific inquiry, art projects, music and movement, conservation activities, reading and math connections and “Healthy Me” dovetailing with the Let’s Move Campaign. Activities are correlated to the National Association for the Education of Young Children (NAEYC) Standards and the Head Start Domains.” ~ <http://www.in.gov/dnr/fishwild/7547.htm>

**March 21, 2015
10 a.m.—2 p.m.**
